WORLDS ON FIRE.

On the 12th of May, 1866, a great conflagration, infinitely larger than that of London or Moscow, was announced. To use the expression of a distinguished astronomer, a world was found to be on fire. A star, which till then had shone meekly and unobtrusively in the Corona Borealis, suddenly blazed up into a luminery of the second magnitude. In the course of three days its discovery in this new character by Mr. Birmingham, at Tuam, it had declined to the third or even fourth order of brilliancy. In twelve days, dating from its first apparition in the Irish heavens, it had sunk to the eighth rank, and it went on waning until the 26th of June, when it ceased to be discernable except through the medium of the telescope. This was a remarkable, though certainly not an unprecedented proceeding on the part of a star; but one singular circumstance in its behavior was that, after the lapse of nearly two months, it began to blaze up again, though not with equal ardor, and after maintaining its glow for a few weeks, and passing through sundry phases of color, it gradually paled its fire and returned to its former insignificance.

How many years had elapsed since this awful conflagration actually took place it would be presumptuous to guess; but it must be remembered that news from the heavens, though carried by the fleetest of messengers, light, reach it long after the event has transpired and that the same celestial courier is still dropping the tidings at each station it reaches in space, until it sinks exhausted by the length of its flight. Now when this object was examined, as it was promptly and eagerly by Prof. Miller and Mr. Huggins, they found to their great wonder that it yielded two spectra—the one imposed upon the other, though obviously independent. There was the prismatic ribbon crossed by dark lines, which belongs to the sun and stars generally, but there was another in which four bright lines figured; and these according to the canons of interpretation previously mentioned, indicated that some luminous gas (or gases) was also pouring out its light from the surface of the orb.

Two of the lines spelled out hydrogen in the spectral language. What the other two signified did not then appear; but, inasmuch as those four streaks were brighter than the rest of the spectrum, the source from which they came must obviously have been more intensely heated than the underlying parts, or photosphere, from which the normal stellar light proceeded. And as the star had suddenly flamed up, was it not a natural supposition that it had become enwrapped in burning hydrogen, which, in consequence of some great convulsion, had been liberated in prodigious quantities and then, combining with other elements had set this hapless world on fire? In such a fierce conflagration the combustible gas would soon be consumed, and the glow would, therefore, begin to decline, subject, as in this case, to a second eruption, which occasioned the renewed outburst of light on the 20th August.

By such a catastrophe it is not wholly impossible that our own globe may some time be ravaged, for if a word from the Almighty were to unloose for a few moments the bonds of affinity which unite the elements of water—of the ocean on the land and the moisture in the air—a single spark would bring them together with a fury which would kindle the funeral pyre of the human race, and be fatal to the planet and all the works that are therein. It cannot but be a startling fact for us that in yonder doomed and distant world we have, probably, seen in our own day, a realization of the fearful picture sketched by Peter, "when the heavens (or atmosphere) being on fire, shall be dissolved, and the element shall melt with fervent heat." And if we regarded it as the centre of a system, it is impossible to think without horror of the fate of the numerous globes around it when overwhelmed by this sudden deluge of light and caloric.

[From the Courier-Journal.]

WORKING OF HOAR'S OPINION.

Attorney General Hoar's late opinion in the Virginia test-oath case involves curious results. He decides that Virginia can, as a State, ratify through her Legislature the fifteenth amendment, but that if Congress, after that, shall reject her Constitution as not legally or fairly adopted, she cannot be recognized as a State, and must be kept in a condition of military subjection. Her act of ratifying the amendment will, in the supposed case, be held by Congress to be a State act to all intents and purposes, and she will be counted among the States making the amendment a permanent part of the federal Constitution, and yet at the same time she will be treated in regard to all things else as a non-State, a province, whatever, in short, Radicalism may choose to have her. All this is vastly ridiculous, but, if it were otherwise, it would be wholly out of keeping with Radicalism's general theory and practice.

Yes, under Hoar's plan, the fifteenth amendment is to be adopted at once by a Legislature *in embryo*, and that action is to be regarded as a valid and irreversible sanction of the amendment, and yet it will remain with Congress to reject the new Constitution or the officers elected under it or to impose such new terms as the exigencies of the Radical party may then dictate.—Canby would secure the adoption of the amendment by turning out the legislators who are opposed to it; Hoar, instead of this violent proceeding, proposes by a gross perversion of language and common sense to cheat Virginia into an apparent assent to the amendment and then leave her just where she is now, to be dealt with by a remorseless Congress. And tens of thousands misguided conservative Virginians are jubilant over the "situation." If they have gained, or if they succeed in gaining ultimately anything by Hoar's opinion, we shall rejoice exceedingly, but we cannot as yet see it, strain our eyes as we may. We see only, as we have seen in it from the first, that the persistent determination of having the South reconstructed solely in the interests of her Radical faction is steadily and surely prosecuted, and that the Southern people themselves are in a great measure used as the instruments through which that faction is working to its ends. And we confidently predict, that, if Virginia now acts in the hope of securing peace and self-government in a mode which the Attorney General pronounces satisfactory to the administration, the people of that State will be swindled out of their expected recompense and will be as far at sea as ever.

It is certain that the Radical Congress will not let Virginia be reconstructed if it shall see any partisan motive to keep her unreconstructed. That's a truth that she cannot understand a moment too soon.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROGERS'S PATENT DOUBLE COGWHEELS; and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it, to economize of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty:—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Salem Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned washboard. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where none is selling; and we state are we they will be liked, we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a DOTY Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, SEPTEMBER 21, 1869.

THE PENITENTIARY SWINDLE.

While the people are daily called upon to pull out their old leather pocket books and shell out the "bottom dollar," to meet the peremptory demands of the voracious tax gatherer, we propose to keep alive in their memories the objects for which these demands are made, as well as to keep before them, also, other objects for which the party in power attempted to increase the burden. Among the many useless, profligate, unwarrantable and corrupt appropriations was one of $100,000 for the purchase of a Penitentiary site, the bonds for which, like those of the $2,000,000 unconstitutional Chatham Railroad appropriation, are out, somewhere, and somebody has got to pay them at sometime, or those in whose hands they are lodged will lose them. We think it likely the people will be called upon, some of these days, *not to repudiate them!*

This Penitentiary swindle was a part of the work of the great "Ring." It will appear so when all the facts are made known. The "Ring" set the scheme on foot by which it was accomplished, and the "Ring" now prevents a judicial investigation of the matter.

It is well known this $100,000 were issued *in a hurry*, and in order to anticipate the action of the Legislature, frightened and astounded by the manifest character of the fraud. It is well known who got these bonds, and when and to whom they were sold.

Now, we ask, why don't Gov. Holden direct his Attorney General, aided by "competent counsel," to institute legal proceedings to compel the parties who got these bonds to surrender them? The parties who got them know where they are and can get them; if they will not, or cannot, then compel the men who fraudulently sold them to pay over the money they received for the bonds, to be kept by the State for such innocent holder, as may have them. Why don't the Governor do this? We learn that the parties who got the bonds, realized about fifty-two cents in the dollar on them; so they got about fifty-two thousand dollars by the operation. We say the State might, and ought to, become a *trustee* for the holders of these bonds to this extent. She might do this as a matter of sound policy. Besides, these fraudulent parties ought to reimburse the State for the money she expended in preparing and issuing the $100,000 bonds.

Governor, why don't you consult "able counsel" about this matter? You have done so about other matters of far less moment and interest to the State and the people, and paid large fees from the Treasury you were not authorized by law to pay; suppose you pay out a little to make the "Ring" men surrender these bonds. They can get them, and will do so before they will go to jail. But we fear you are, *at least*, the friend of the "Ring." We are sorry it is so.

We learn from the Raleigh *Sentinel* that "R. M. Allison Esq., of this place has sought and obtained an injunction restraining the Treasurer from issuing, and the W. N. C. R. R. Company from receiving, State bonds to the amount of $80,000 to build a branch railroad from a point near Catawba Station, on that Road, to the Lime Beds of Dr. Powell and others. If the bonds for this sum have been issued, then the Railroad Company is required to desist from expending any part of such sum in the construction of the 'Lime Bed' branch, and to surrender bonds to this amount."

We had understood that work upon this branch road was to have been commenced last Monday, by contracting parties, and we presume that the work will be carried on, the injunction to the contrary notwithstanding; for the bonds have been disposed of already in New York, as we are informed, and it will be a very difficult matter to restrain the application of the money for the road, in the hands of the Company, without their consent.—*Statesville American.*

We do not know whether, in the above extract the *American* speaks conjecturally, or "by the card." If the paragraph is penned upon information, official or otherwise, from those directly connected with this matter, it only gives another manifestation on the part of the great "Railroad Ring," to effect their purposes, law or no law; Court or no Court. We have opposed these "Rings" all along, because, in addition to their corruptions, they are becoming, indeed have become, by combination and the use of bribery, an overshadowing power in the State, overriding constitution, law, justice and private rights. We should not, therefore, be surprised to learn that, having by threats, promises cajolery and other means, got their plans in such a successful train, they should set at defiance the voice and orders of the constituted Judicial authority, when it becomes an obstacle in their way, and push forward in the accomplishment of the schemes it cost so much to concoct and put in operation. It remains to be seen whether the constitutional legal tribunals of the State are to be thus overridden and set at nought, or whether the Executive will support the Judiciary branch in the exercise of its constitutional functions.

A. S. BARNES & CO.

On Saturday we had a call at our sanctum from a friend who introduced a member of the firm of A. S. Barnes & Co., New York, and also an agent of that House.—Our friend assures us that from business relations of long standing with A. S. Barnes & Co., he has reason to believe it is a house of high character.

The member of the firm and the agent, who called, both assured us, and in a manner to inspire confidence in the assurance, that the house of A. S. Barnes & Co., have never offered to the Superintendent of Public Instruction of North Carolina, or to any one else, directly or indirectly, any pecuniary inducement for the adoption of their publications for the Public Schools of the State.

While we give this disclaimer of the house of A. S. Barnes & Co., as a matter of justice to them, we are no more reconciled to the action of the Board of Education in the adoption of the books they have seen fit to make; no more convinced of Mr. Ashley's qualification to make the selections of text books for the State, and no more able to see the economy or wisdom of the action of the Board than we were before.—But we shall have more to say in regard to this matter hereafter, as the subject is, by no means, exhausted.

MR. PENDLETON ON THE CHINESE.

Hon. George H. Pendleton, in his speech at Clifton, Ohio, gave utterance to the following very decided language on the subject of Chinese immigration:

THE CHINESE.

The opening of the Pacific Railroad, the demand for labor at the South, the desire for nimbler hands and less voracious appetites in the factories, have turned the attention of speculators to the teeming populations of the East. They find these warm and fertile countries densely crowded with a patient, degraded and heathen race. "Their skilled laborers get $3 or $4 per month, and with this they seem content.—They work from daylight to sunset, and have but a single holiday in the year.—Their food consists of rice, salt, a few vegetables, and sometimes fish." The proposal is to bring immense numbers of these people here to supply the demand for labor in the fields and the factories and the shops. We in Ohio have not appreciated the importance of this movement. I protest against it now, in time, before it is carried out—before they come among us—before we are confronted with duties, and obligations, and interests growing out of their presence. They are an alien, an inferior and idolatrous race. They have not our tastes, or habits, or manners, or development, or religion. They are not fit to become citizens, or to enjoy the right of suffrage. Amalgamation would injure both their race and ours. Isolation will give rise to great troubles. England, Ireland, Germany, Norway, France, have an overflowing population of our own race, similar to us in blood, in manners, in habits and in religious faith—an industrious, sturdy, self reliant, self respecting people. They are fit to become citizens. They will mix with us, and our commingling blood is purer for the association. Let us invite them with open arms to come to us. Let us people our country with the best races of men. But the Chinese will give us cheap labor! *Cheap human labor!* I despise the word. It signifies squalor, degeneration, ignorance, vice. Are not laborers men? our fellow-men? They have bodies to clothe and stomachs to feed and minds to educate, and spirits to elevate, and old age to provide for. They have homes which they love and wives whom they cherish, and children whom they hope to make worthy citizens—the honest fathers and the virtuous mothers of a succeeding generation. And can you remember these duties and see these aspirations; can you contemplate the the patient hopefulness of cheerful and contented, because fully compensated, industry and talk of cheap labor?—Labor is too cheap now. Labor does not receive its just reward. This country needs skilled laborers, and honest, intelligent, undragging, zealous industry; it needs that such labor shall not be cheap, but that it shall be most bountifully rewarded. The relation of capital and labor is now badly adjusted. Idle money—money which has no human wants or affections, or sympathies—earns more than labor, with all its sweat and toil and suffering. Money combines with money and seeks increase and immunity under acts of incorporation, they are in some of our States denounced by the law, and everywhere looked upon with suspicion. They should not antagonize. They should co-operate. They should be in harmony. I do not know that the full solution of this great problem has been discovered, but I believe great progress has been made in late years to establish a juster and better relation. That progress will continue. It must command the efforts of advancing civilization and the favor of a just God, until at last the human intellect and hand and blood as they constitute the nobler, shall also be the better paid member in the great partnership of labor and capital.

From the Journal of Commerce.

THE JONES COUNTY OUTRAGE.—The latest information we have of the recent attempt at assassination, is contained in the annexed communication. It will be seen that Mr. Green is not expected to survive:

TRENTON, N. C., Sept. 16th, 1869.

MR. EDITOR:—Another attempt to assassinate was made in this county on the evening of the 15th instant. David J. Green, living about eight miles from Trenton, was waylaid and shot on the public highway, about half mile from his residence. He is yet alive, but little hopes are entertained of his recovery. Two persons, it is thought, were engaged in the attempt to kill him.—One has been arrested and is now in jail upon suspicion. He is a negro by the name of John J. Green.

Various rumors are afloat as to the cause of the attempted murder.

Are peaceable and quiet citizens to be thus shot down by concealed negro militia, who roam the country at will with government arms in their hands, shooting when they please and whom they please and no one to check them? There will, likely, be more shooting unless this lawless element is disarmed and put under some authority that can govern them. They are a complete pest and nuisance, and have done no good whatever in preventing murders, burnings, &c.

CITIZEN.

Hon. J. A. Royce, of Cincinnati heretofore a prominent Radical, in a communication to the Cincinnati *Enquirer* says: "I have severed myself from the Republican party, because it is an organized hypocrisy, a shuffling dissimulation, a fraud, a delusion, a snare, a combination of grasping fanatics, fattening on the vitals of the wealth producers and wealth-distributors of the country."

The Athens (Ga.) *Republican* states that fifty or sixty families will leave that county (McMinn) for a home in the far west this fall.

A SAD CASE.—A very poor family passed through Wytheville, Virginia, a few days since, and encamped in an old field near the town. During the night, with no shelter from the rain, the mother gave birth to four children. The Bristol *News*, in giving the item, says that the husband was too lazy to even carry straw from a neighboring back yard to make the woman a rude bed.

THE YOUNG GEORGIANS DISCHARGED.—The United States Commissioner at Macon, Ga., has on motion of the district attorney, discharged the young Georgians who were recently arrested for engaging in a fillibustering expedition to Cuba. In his address, the district attorney said that Georgia could not now spare her youth and vigorous manhood to fight the battles of another people, however great her sympathies might be enlisted in their behalf, and that they had better stand by her and lend their strength to the noble work of lifting her up from the disastrous results of war.

THE FUNDS OF THE AVONDALE SUFFERERS.—The response of the country to the appeal for the Avondale sufferers is as generous as universal. The New York Times says:

"From all quarters money is pouring in, and we are told that, from present appearances, it is probable that the sum of $350,000 will be raised and forwarded within a month. It is specially noteworthy that most of the collections are made in small sums, varying from one dollar to ten dollars, thus showing the sympathy with the sufferers is very widespread, touching all classes, and calling for the widow's mite as well as the corporation's purse. It now remains to make a proper use of this great charity, dispensing it wisely, impartially, promptly and prudently. That so many of the contributions are from those who could ill spare them makes the obligation of a wise use of the fund the more imperative."

IMPORTANT TO LIQUOR DEALERS.—In a case before the acting Commissioner of internal revenue, last week, the following points were considered and decided:

1. A has paid a special tax as wholesale and retail liquor dealer, and makes sale to B at one time and place of 10 gallons of whisky, 4½ gallons rum, 1½ gallons gin and 4½ gallons brandy. The questions were then submitted: Are the last three packages the sale of a wholesale or a retail dealer? Do they require stamping, or not?

2. A has paid special tax as a retail dealer, and makes a sale to B of 4½ gallons of rum and 4½ gallons of wine, in wooden packages, at one time and place. Can he do so under his license?

3. Are retail dealers in liquor confined to sales in wooden packages guaging less than five gallons? Has the size of the package anything to do in the case?

The decision is, in substance, as follows:

1. A, as a wholesale dealer, cannot sell a package containing less than five gallons. The sale of several packages which separately contain less, but in the aggregate contain more than five proof gallons, cannot be made by a wholesale dealer. The sale of the three last named packages is that of a retail dealer.

2. A retail dealer is limited in his sales to a less quantity than five gallons. The sale of several packages of the same kind of spirits at the same time, each containing less than five proof gallons, but which contain in the aggregate more, cannot be made by a retail dealer, but he may sell several packages of different kinds of spirits, each containing less than five proof gallons, although the aggregate may be more. The sale of each kind is considered as a separate sale.

3. All packages filled by a wholesale dealer must be guaged and stamped under section 25; and in addition thereto, if containing ten gallons or more, to be marked and branded under section 47, act of July 20, 1868. Wholesale dealers must put up their spirits in such packages as are susceptible of receiving these stamps and marks or brands, and admitting of their proper cancellation; and as glass vessels are not of that character, they should not be used by wholesale dealers. No guaging, marking, stamping or branding is required on a retail dealer's package. Such dealers, therefore, can use packages of any material they please.

A WRONG CONTEMPLATED.

"General" Robert Williams and "Marshal" Alexander H. Sharpe are candidates for the Senatorship from the State of Virginia. There is no impropriety in quoting their titles. The first is an actual Major and a brevet Brigadier. The second is the officer whose duty it is to be sheriff, and when called on, hangman for the Federal Courts of the District of Columbia. Hence the handles, to their names are sound, signifying nothing. We hope neither will be chosen, for neither is competent, neither is a citizen of the commonwealth in any real sense, as will be shown, and both represent a system of place seeking in politics, which if pursued to success will make it a disgrace to be a Senator of the United States. Mr. Williams is in position an officer, in duty a clerk in the Adjutant's Department of the Army Office in Washington, where he lives, on Nineteenth Street, near I. Mr. Sharpe is a resident of Washington also, and lives at the White House by virtue of being a brother-in law of the President.—Each of these persons has shrewdly purchased a lot of ground in Virginia, elected to be considered residents thereof, has legally paid taxes thereon, having, notably, done so just long enough to become *quasi* citizens of the Old Dominion, whose honorable Senators they press and are pressed to become. Personally, they are amiable men. Mentally, they are below even the average of ability which has set in since the war.—Politically, in the true sense of the word, they are devoid of experience. Actually, they are not residents of the State and have consented to be used as tools of a partisan ring. The only reason advanced in favor of their election is that the President does not hesitate to request it. Why he should request it is only attributable to the double fact that Mr. Williams once saved a young man, Captain Grant, from dismissal from the service, out of which he was tolerantly told to resign, and that Mr. Sharpe, as said, is the brother in law of the President. The election of these gentlemen will enable the Executive to pay a debt and advance a relative. Moreover, it will assure his influence for Virginia's immediate admission to Congress.

We think these considerations enough to warrant a hearty and unanimous protest from the independent press of the whole country. They place any party, any President, any candidate so acting in a degrading situation. Of the wrong done a State by such juggelery it is unnecessary to speak, and impossible to speak temperately if spoken of at all. There would have been in the better days of this people no one hardy enough to invite the odium of such a course as that sketched out. At this rate it looks like we were to be guaranteed the perpetuity of an obscure family and of their obscure creditors in office till the end of time. One State is to be provided with a Governor, another with Senators so-called, several cities with postmasters, collectors and assessors, and various countries and posts with ministers and consuls respectively, all either of the family or of those to whom the family owe sundry favors.—Thus is the civil service made the vehicle of nepotism, and thus is payment in patronage given for value received. This is scandalous. This among a race of men more mercurial than ourselves would give an Administration such a shock as it would not survive. Here it meets only the applause of the party journals, and scarcely the attention of a drugged people.

Let the Virginia Legislature be firm enough to elect real citizens to be Senators. Compliance with the laws and their restrictions does not involve any humiliation and trickling. They owe to their people to allow them to be misrepresented by no adventurers. The presence and working of such representatives from other Southern States in the Congress have been so baneful that the anomaly will not bear repetition. Moreover, for a President to intervene even by a word in behalf of any candidates to any State is impertinent, and disgraceful, and dangerous. When this intervention looks towards the elevation of creditors and relatives it passes the respect due to high office, rightly to characterize it. Let this projected outrage be so denounced and exposed as to make the perpetration of it impossible.—*New York Republic (Independent.)*

SPEECH FROM THE HON. S. S. COX.—The Hon. S. S. Cox, after a long absence in Europe, was serenaded at his residence in New York on Thursday night by a large company of friends. In answer to repeated calls he addressed the company. After expressing his gratitude for the welcome, he touched upon politics and said:

In America we have still the same picture of whole States most unfairly misgoverned. States which, four years ago, were acquiescent in our national authority, which were ready and anxious to take their old seats in the national council, are yet disfranchised. There are scenes of disquietude and conflict. The spectacle is a disgrace to our age, to the decade, to the very year we live in. It is a vicious government which does not give the people contentment. What can be said of an administration which, after encouraging the people to one course of action with a view to healing all the fresh and bleeding wounds of civil war, after saying to certain States, "Accept the situation, accept negro suffrage, accept this and that amendment, be ruled by your former slaves, succumb to black ignorance and irresponsible power, either or both," and after these States and communities in despair follow this compulsory advice, then to have the head of the administration, for party and ambitious purposes, deliberately turn his back even on the miserable devices which he had counseled, to foment other and worse schemes of discontent and anarchy? It is both a crime and a shame.

But this cannot last forever. The party of the people must and will amend it.—That party is the democracy. They bear a banner that has never been furled. Its mottoes of free industry, free commerce, free banking, and free currency, shine upon it with more than usual brilliancy, because of the darkness of its opponents. Let the democracy stand by the conservatives of the South. Let us take counsel of the tactics and principles by which Virginia was won. No looking back to dead issues. Wars of violence and institutions of barbarism are gone. It is ours now to grapple and throttle class legislation and monopoly, to destroy the despoilers of labor, to champion again the principles of democratic expansion—not the expansion of irredeemable currency or unrequited taxes, but the expansion of territory and the establishment anew of local self-government. Let it demand the standard currency of gold and silver, and the repeal of the atrocious tariff which shackles commerce and paralyzes industry.

The Telegraph Money Order System, in use in Belgium and Switzerland, is about to be established in Great Britain by the government, and the idea is received favorably by the people. The plan proposed resembles the postoffice money order system. Two similar forms, showing the amount of money to be sent, are filled up in the same way by the remitter. The postmaster receives these cards and the money. He stamps one of them and gives it back to the sender, to add anything he may wish by way of telegram. It is then sent to the telegraph office, and the receiver by applying with the telegram at the district postoffice, obtains the money.

TRADE MARK.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice**, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug. 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. McREE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved. DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public. JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision. THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

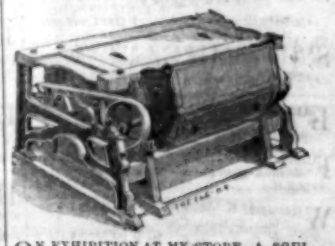
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

NEW ADS.—Court Advertisement from Gates County.

Then comes Upchurch & Dodd with a numerous list of articles among which are some that nobody pretends to try to do without.

And then W. H. Jones & Co. offer a smut machine, wagon harness and some other things that persons can't well do without if they try.

G. T. Stronach, every day something new. Read the list.

The rogues have been operating at Asbury and Morrisville in Mules and horses—making up a drove, no doubt. Read the ads.

See the Card of Col. Walter Clark Attorney at Law, Scotland Neck N. C.

Friend Towles; Seed Wheat, Potatoes, and Bailing Rope.

W. C. Stronach & Co., can't keep their goods on hand. They advertise them and away they go. More in to-day.

NEW ENTERPRISE.—Hilliard Bishop has started a street Omnibus, to take passengers to any part of the City—fare 10 cents. It is a very neat establishment and drawn by a pair of comely sorrels.

ANOTHER.—John Kelly runs a one-horse buggy for the accommodation of persons going from one part of the City to another, saving time and sole-leather for a moderate consideration.

The wonder is, that there has, never been anything of this sort attempted here before. Many of our people would avail themselves of such a convenience, if it were a thing sufficiently sure to rely upon.

These enterprises will not pay very great profits at present, but they will do better after a while, when the people get more in the habit of using them. The price, too, must be put to the lowest notch, to make to make them pay. Three passengers at five cents pay better than one passenger at ten cents; and four persons will pay five cents to ride, where one will pay ten. This is human nature and practical Arithmetic, two things always to be considered at the commement of new enterprises.

There will be a meeting of the Executive Committee of the N. C. Agricultural Society at their office on to morrow, (Wednesday,) at 10 o'clock, A. M.

MAYOR'S COURT.—Nancy Hare, crazy, escaped from the Poor House—returned.

Jim Harris, colored, not the M. L., for stealing a coat some days since, was up on the charge, and the evidence being conclusive, he went to pot for want of bail.

Some drunks that we will say nothing about, this time.

Wm. Edwards, colored, for "slapping" his wife, dismissed with a caution.

ONE MORE SIGN of improvement, is the foundation of a new private residence by Mr. Wm. Simpson, in Western Ward, nearly opposite the place occupied by him at present as a residence. It is to be a framed building with brick basement; the timbers are being brought together, and before long it will be ready for its inmates.

OUR DIT, that Gen. M. S. Littlefield has been appointed Financial Agent of the State of North Carolina for the City of New York! Is it possible?

WANTED A WARRANT.—A dusky damsel, all the way from "nigh on to this side of New Light," who said her name was "Lindsey Cotton; Polly Cotton's gal," appeared before his Worship, Justice Adams, yesterday, and demanded a peace warrant against a white man named Jefferson Read, who, she said, had threatened to "cut her throat from year to year"—a terribly protracted operation for one of such an unpleasant character, for stealing some corn, as *he* said, out of a field of his that was *not* his, as *she* said.

Upon a due consideration of all the circumstances of the affair, as detailed by the fair applicant, his Worship advised her to apply to some Magistrate in the neighborhood, and assured her that, in case the bloody cut-throat should commence the execution of his threats, she would have ample time to commence resistance before the expiration of the first *year*.

The truth is, the whole thing bore the marks of those trivial cases which some ignorant people, white and colored, are so prone to get up, just for the novelty of going to law, swearing and testifying, for the sake of notoriety. We believe the law should extend protection to all alike, when there is occasion for it; but Justices could save a good deal of expense to the county and to individuals, by the exercise of a prudent discretion, and the administering a little good advise in such cases.

ANOTHER EDITORIAL BREEZE.—Mr. James H. Pool was bound in a bond of $500 in Newbern, Saturday, for shaking F. H. Sterns, of the *Times*, partially out of his boots, on account of an article accusing Pool of being a K. K., which appeared in the *Times* a few days before.

WE learn from the Statesville *American* that Capt. Bardwell and his assistant Engineers, who for the past six weeks have been engaged in surveying the Plaster Banks and Salt Works Railroad from Statesville to Mt. Airy, have completed the survey.

Dr. H. M. Pritchard was nominated by the Republican Convention, last Saturday, at Charlotte, to fill the vacancy now existing in that Senatorial District, occasioned by the death of Judge Osborne.

PERIODICALS.

LITTLE CORPORAL, published at Chicago, Ill., is worthy of being promoted to a captaincy, and would be if all its little boy and girl readers were to get together and hold and election. The price is a dollar a year, and it is worth five; and, just now, the terms are more liberal still, for the Publishers, Alfred L. Sewell & Co., propose to send it the balance of this year and all next, to all subscribers whose names are sent in before the last of October for $1.

THE SUNDAY SCHOOL CONVENTION.—This body, after a very harmonious session of three days, adjourned on Saturday afternoon, to meet in Newbern at the next session of the N. C. Annual Conference. The exercises with the Raleigh Sabbath School, on Sunday, were of the most pleasing character. The Address of A. H. Merritt, Esq., at 3½ P. M., before the schools of the Methodist, Baptist and Presbyterian Schools, assembled in mass meeting at the M. E. Church, was chaste, practical and instructive.

The Church was crowded with the members of the Sabbath Schools named, while the galleries were occuppied by spectators. It was a glorious—a happy sight, to see the bright and joyous faces of the children as they mingled their voices in the songs and choruses so appropriate to the occasion.—But among all the bright and happy faces none shone brighter or happier than those of the officers of the various schools, who thus witnessed a sort of aggregated success of their noble efforts in the cause of Sabbath School education, and the fair promise of still greater success and usefulness for the future.

We shall, perhaps, not revert to the subject of the Sunday School Convention again soon, and will, therefore, take the opportunity here of paying a deserved tribute to Mr. and Mrs. W. J. Young to whose musical instruction the Sabbath School of the Methodist Church is indebted for unusual attainments in the beautiful and captivating art of song. To them and the children, assisted by members of the Choir, the Convention was indebted for no small share of the pleasure of the occasion.

AN ALLEGED SCHEME TO DEFEAT RECONSTRUCTION IN VIRGINIA.—A Washington special to the New York *Herald*, dated Thursday, 16th says:

"Information has been received here from Richmond of an infamous plot set on foot by radical leaders to defeat the admission of this State into the Union at the meeting of Congress. Its main object, after the fifteenth amendment is ratified, is by strategy to filibuster the Virginia question over to the next session of Congress, and thus keep the present radical appointees of General Canby in office another twelve months.—Under the constitution elections for judges, sheriffs, and city and county officials take place in May, and the officers elected enter upon the discharge of their duties the following July. If the State is admitted before May next all the present office holders by military appointment would be ousted. In order, therefore, to save their radical minions it has been determined to keep the State out another term if possible. With this view a number of letters have been received from several radical members of Congress counseling a strenuous opposition by the party here to the restoration of the State. Among these are several from Gen. B. F. Butler, chairman of the Reconstruction Committee, and even Mr. Boutwell has volunteered his services in the same direction."

Doubtless there are individuals equal to such a purpose as this, but Congress will hardly prove so false to the professions made to the people of Virginia in the act for admitting that State upon certain conditions, and with all of which her people will faithfully comply.

FROM WASHINGTON.

WASHINGTON, Sept. 21.—Revenue to-day $621,000.

Louis Bush has been re-appointed special Depredation Agent of the Post Office Department.

The small note famine will be partially relieved after the 1st of October.

Secretary Boutwell, Commissioner Delano and Col. Capron, have accepted invitations to visit the Georgia State Fair, which will take place at Macon on the 16th of November. A steamer will leave here early in November for Savannah, where the party will take a special train for Macon. Other prominent Government officials will probably attend the Fair.

The aggregate specie reserve of National Banks of the United States is over $17,000,000.

It is rumored that Gen. Ames asks for four days for the Mississippi election.

NEW YORK

WAVERLY, N. Y., Sept. 20.—The Express train bound North, on the Pennsylvania and New York Railroad collided with a car on the track. Two persons were killed and several wounded. No Southern names.

FOREIGN.

LONDON, Sept. 20.—A Rio Janeiro steamer has arrived. Her advices report the capture of Aucurra at Pierebebin; Lopez has fled. The news causes rejoicing throughout Buenos Ayres; Montevido and Rio Janeiro were illuminated.

LONDON, Sept. 20.—The *Post* of this morning says, "It now appears that America only made friendly representations to the Madrid government in favor of reasonable demands of Cuba.—Probably Napoleon's advise to the Regency is, that Spain should act considerately toward Cuba, and so disarm American influence. The French government favors a conciliatory policy at Madrid, and non-intervention at Washington. The *Standard* says that Prim's attempt to induce England and France to join in a Protectorate for Cuba has totally failed.

The Paris correspondence of the *Times* says that the Emperor's recovery has caused a lull in the fierce debate which has begun between the party of the Empress and the friends of Prince Napoleon. The rivalry already displayed by each faction gives a foretaste of what is in store for France, when the death of the Emperor lets his family loose and gives up the State to their unseemly discords.

THE UTLEY
COTTON PRESS.
A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to the merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug. 28. 1m

THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.
Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.
It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other ever one. It insured more lives in Canada than any other Company, British or American.
See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 599 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 327 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

A LOVE STORY.

A correspondent of the Jewish *Messenger* gives a new explanation of the reason why the late Washington Irving always remained a bachelor. Speaking of Miss Rebecca Gratz, a Jewess of Philadelphia, distinguished for her zeal in works of charity, who had just died at the ripe age of 88, he says:

"Twenty years ago I heard the story—a story that has long been current in Philadelphia, in Jewish circles, among her friends and acquaintances, and which has again been revived here since her death. It runs thus: Many years ago, when Miss Gratz was a young girl, Washington Irving, then already risen in literary reputation, came to Philadelphia and became a visitor at the house of her family. It is said that in youth she was very beautiful and very good; and as her acquaintance with Irving increased, the beauty of both her character and her features, together with the fact that she was a living representation of that nation whose whole history is romance, so wrought upon his heart that he became deeply enamored with her. It is needless to say that had his attachment been ever so strong, with her strength in her faith, it would have been wasted. As it was, it was wasted. Irving left the city, but did not forget the lady of his love.

The writer adds that Irving subsequently mentioned to Sir Walter Scott his intimate acquaintance with the beautiful Rebecca, of Philadelphia. Scott, it appears, was writing, or about to write, "Ivanhoe," and upon the strength of Irving's description of the lovely Jewess, so firm to her faith, named his heroine Rebecca."

A PHYSICIAN'S STORY.—An eminent physician, in *Hearth and Home*, tells the following excellent story for the benefit of young mothers. He says:

"An intelligent young mother inquired some days since how she could best preserve her child's linen clean and sweet when changed frequently during the day. I directed her never to dry it by the fire, but in the sun and open air, if the weather permits to. You thus not only avoid saturating the air of your room with the volatile and poisonous gases driven out of the linen, but the sun's rays have powers of cleansing and disinfecting which artificial heat has not and will purify and preserve the linen. She followed my directions; but as is too often the practice, dried and aired it in the nursery window. Her fastidious husband remonstrated in vain against this nuisance's exposure. Believing that if she was her practice as others saw it, she would desist, he so directed their afternoon walk as to bring the nursery window into full view from a central part of the town. Stopping abruptly, he pointed to the offending linen flapping ostentatiously in the breeze, and asked, sarcastically: 'My dear, what is that displayed from our windows?' 'Why,' she proudly replied, 'that is the flag of our union!' Conquered by this pungent retort, he saluted the flag with a swing of his hat, and pressing his wife's arm closer with in his own, said, as they walked homeward, 'And long may it wave.'"

ADMIRATION AND LOVE.

Though there are few instances in which a man falls in love at first sight, most persons who marry imagine that such was their own case. Some gay young bachelor, happy as a lark, and independent of anybody's will but his own, sees a pretty face somewhere at a party or a dinner. It provokes his admiration, installs him slightly, and when he goes home, he finds that he is troubled, he scarcely knows why. Next morning, he experiences a faint echo of the same pang; but, during the day the impression vanishes for good. He is as merry as ever, as careless, as self-reliant. But it happens that he is again and again thrown into contact with that too charming creature who owns the pretty face. His troubles increase; he scarcely knows whether to fear most the terrible, tantalizing joy of seeing her, or the weight of depression that falls upon him when he leaves the house and is shut out into the cold, dark air. Of course, he knows that he is in love. If the consciousness is any comfort to him, he has it.—But now he reasons backward, and recalls the first evening on which he met her. He exaggerates the very slight impression she then made upon him; he looked upon her as she now appears to him, and fancies that he must always so have regarded her; and then he makes up his mind (or that portion of it which she has left him,) that he fell in love with her the very first moment he saw her face. He argues—not unfoolishly, either—that he must have been in love ever since that time, because ever since the time he has been disquited and troubled—a misery to himself, and a nuisance to his friends. In brief, he regards falling in love as a single act, inevitable in its occurrence, and irremediable in its consequences; whereas it is a long process, which may be interrupted at any moment.

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons who HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white co t. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are afflicted with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe plan is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that efficiently *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of causing PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellow-fish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as any remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, gives irritation, to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical) are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes a one or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has so afflicted His children with pain and disease without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to us, and stating your case in full, and I will answer you promptly.
